## Your Complete Source for Biodegradable Lubricants

Seeking an environmentally friendly grease solution? We have your answer.  
Introducing **ECO Marine Grease** from DSI Ventures, Inc.

**ECO Marine Grease** is an Extreme Pressure (EP), vegetable seed based grease designed to give superior performance in marine environments with the added advantage of being readily biodegradable.

Our grease is recommended for any applications that may require reduced environmental impact and excellent water resistance. It resists oxidation, wear, corrosion and breakdown better than traditional greases while utilizing plant based oils having little or no toxicity. This gives you the added environmental value you've been seeking.

**ECO Marine Grease** is the total eco-friendly grease you've been seeking with outstanding support and protection. Our support staff is available to assist you in evaluating your current biodegradable lubricant needs. Contact us today for a quick, no obligation consultation.

### Available Packaging:

14 oz. tubes in 8 Pack or 40 Tube Case, 35 lb. pails, 120 lb. Kegs, 400 lb. drums.

## ECO-FRIENDLY BENEFITS

- Excellent Antiwear and Load Capacity
- Solves your environmental problems
- Resists water wash-off
- Minimizes Environmental Impact
- Compatible with other multi-purpose greases
- Low or No Toxicity
