

ALPHA-4V FLUID

- Crystal clear color no odor
- High dielectric strength
- Highly efficient cooling properties
- Nontoxic
- Superior switching medium
- Compatible with mineral oil and PCB Fluids

Highly Refined Heat Transfer Fluid for Transformers, Switchgear and RF Transmitters

Alpha-4V Fluid is a dielectric and heat transfer oil for special applications where operating temperatures are very high or ambient temperatures are very low. Made with 100% highly refined hydrocarbon oils, it is compounded with the most advanced antioxidants available. Providing excellent heat transfer characteristics and low-temperature properties, it has outstanding oxidation resistance.

Biodegradable and universally compatible with mineral transformer oil and standard insulation materials, Alpha-4V Fluid cools equipment better than other fluids. Due to its high quality, advanced base oils and oxidation inhibitors it provides longer service life at high temperatures.

Applications

- Excels where operating temperatures need to be controlled, in transformer-rectifier sets, load-break and tapchangers
- Chosen for use in overloaded transformers and viscosity-dampened switchgear
- Exceptional heat transfer characteristics insures equipment maintains low operating temperature
- Switchgear and tap changers mounted in transformers
- Proven cooling of high powered RF transmitters and communications equipment

ISO
9001:2008
REGISTERED

TYPICAL CHARACTERISTICS - Compared with ASTM D3487, Guide for Mineral Insulating Oils

<i>Characteristic & ASTM method</i>	<i>Alpha-4V</i>	<i>ASTM Spec</i>
Flash Point, D92, °C	215	145 max
Viscosity, D88, cSt. @ 100 °C	4.5	3.0 max
Specific Gravity, D1298, 20 °C	0.83	0.91 max
Pour Point, D97, °C	-31	-40 max
Appearance	Clear	Clear
Dielectric Breakdown, D1816, kV	58	35 min
Dissipation Factor, D924, 100 °C, %	0.01	0.30 max
Biodegradability (per BOD tests)	55-60%	—
